KIDS' ROOMS DESIGN GUIDE

If your kids' idea of a clean room is everything piled in the corner, it's time for a storage-solution intervention. Check out these designer spaces that use fresh ideas to create clutter-free kid spaces.

An apron has been attached to one side of a small wood table that has four chairs with green and brown seat backs and covers. Inside the apron are several plastic tools.

SLIP AND HIDE: DRESSING UP SIMPLE TABLES

After interior organizer and home stylist Noelle Micek discovered her kid clients' favorite toys were their tools, she created a customized table apron to house their beloved screwdrivers, hammers and pliers. Now not only is it easier for the boys to find their tools, their special "table tool belt" keeps them motivated to put them back when they're done. Plus, she created washable slipcovers to protect the chairs from errant paint and markers.
